RELIGIOUS EDUCATION.

JESUS'LOVE FOR US.

Jesus' last supper with the disciples (Mark 14:12-26)

The Last Supper is the final meal that, in the Gospel accounts, Jesus shared with his apostles in Jerusalem before his crucifixion. During the meal Jesus predicts His betrayal by one of the apostles present, and foretells that before the next morning, Peter will thrice deny knowing him. After that prediction, Jesus took a cup of wine and a piece of bread and gave a thanks prayer then He served His disciples.

How Jesus' death shows love for us. (John15:12-14)
The greatest love one can have for a friend is to give his/her life for him. As a way of showing us love, Jesus had to die on the cross for sins on the cross.
As a sign of love, Jesus went through the following;
He was beaten, He was forced to carry a big cross, thorns were put on His head and finally He was killed on the cross.

(b)Give names to these examples of living things.

Different ways of caring for things and environment.
Things in our environment include; rocks, animals, people, soil, water, insects, among others.
Things done by living things or things which have life.
They breathe, they excrete, they reproduce, and they grow and feed.
In the other hand, non- living things are things which do not have life.
They do not breathe, do not grow, do not feed, do not reproduce, and do not excrete.
Non- living things include; sun, stones, water, soil, sky and air to mention but a few.

We care for the creations in the following ways;
Watering the plants, feeding animals, weeding plants and bathing babies and so many others.

Uses of God's creation

- The sun gives us light during the day.
- The Moon and the stars give us light at night.
- Plants (food, shade, medicine, firewood, building materials, some plants act as wind breaks.
- Animals (milk, meat, hides and skins, eggs, security, manure.)
- Water (drinking, bathing, home for other living things.)
- Air
- Stones (build houses and roads)
- Insects
